

2020 IROS Workshop on Wearable SuperLimbs

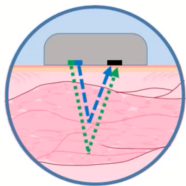

Manus Robotics

DR. FAYE WU, CTO

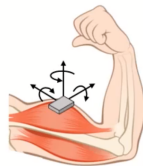

Wearable SuperLimbs: Design, Communication, and Control
IROS 2020 Workshop

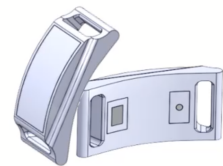

M2Sensor

Optical Elements of Different Wavelengths

Motion Measuring Units

M2Sensor

- Robust against motion and ambient light
- Straightforward calibration process
- Intuitive APP & Cloud Data Management System
- Lower cost by using standard components
- Light-weight and compact form factor that supports a wide range of applications
